Rationale

The Academy's overarching goal for 2025 is to harness the power of engineering to build a sustainable society and an inclusive economy that works for everyone. As part of delivering this goal, the Academy will work to foster talent and diversity so that the UK has a world-leading and truly inclusive engineering workforce. This should be reflected in the awardees of the Academy's grant schemes.

Aim

To provide additional support to applicants from groups that are persistently underrepresented within UK engineering through the grant application process. This [positive action](#) will contribute to improving diversity in the talent pipeline and widening the diversity of applicants and awardees within the Academy's research grant schemes.

The process will be run in the [2024 RAEng/Leverhulme Trust Research Fellowships](#) call.

Access Mentoring should not be used by universities as a mechanism to influence internal selection or shortlisting processes.

Candidates who undertake Access Mentoring are expected to submit a full application to the RAEng/Leverhulme Research Fellowships scheme.

The RAEng/Leverhulme Trust Research Fellowship summary

The RAEng/Leverhulme Trust Research Fellowship scheme allows early- to mid-career academics to concentrate full time on research.

The Fellowship covers the salary costs of a replacement academic who will cover the Awardee's teaching and administrative duties for up to one year.

These Fellowships provide:

- early- to mid-career academics with an opportunity to enhance their current research interests and initiating new lines of research by relieving them of their teaching and administrative duties
- an available support fund of up to £2,500 for miscellaneous research costs incurred by the awardee, including conference attendance and public engagement activities.

These Fellowships are funded by The Leverhulme Trust.

The Leverhulme Trust

The Leverhulme Trust was established by the will of William Hesketh Lever, the founder of Lever Brothers. Since 1925 the Trust has supported grants and scholarships for research and education. Today, The Leverhulme Trust is one of the largest all-subject providers of research funding in the UK, distributing over £60 million a year. The Trust provides funding across academic disciplines, supporting talented individuals in arts, sciences, engineering, and social sciences to realise their personal vision in research and professional training.

Common errors in RAEng/Leverhulme Trust Research Fellowship applications

The most common reasons applications are unsuccessful are given below:

Competitors	Not knowing and acknowledging competitors.
Vision	Vision and ambition not clearly explained.
Novelty	Proposal lacking novelty, or not articulating how the proposed work will address a novel research question.
Realistic	Unrealistic in terms of overstating potential impact. But also, milestones, resources, and the applicant's ability.
Communication	Poor communication skills. Inconsistent/unclear information provided in the application form.

Eligibility

Applicants will need to meet the following criteria to qualify for Access Mentoring:

1. Meet the eligibility criteria for a [RAEng/Leverhulme Trust Research Fellowship](#).
2. To be from an underrepresented group in engineering, specifically:
 - **Women**
 - **Black people including those with any mixed ethnicity with Black ethnic background(s)**
 - **Disabled people**

All candidates, including those from the identified underrepresented groups, must meet the assessment criteria for the RAEng/Leverhulme Trust Research Fellowship scheme, detailed in the [applicant guidance notes](#).

Eligible applicants are not obligated to undertake Access Mentoring.

Mentors

Access Mentors will be Fellows of the Academy, RAEng/Leverhulme Trust Research Fellowship alumni or members of the awardee excellence community.

Mentor/mentee pairing

- Mentees will be matched with a mentor on a first come, first-served basis.
- Mentees will be matched with a mentor at the Academy's discretion.
- Mentor and mentees will not be matched based on research discipline or any other criteria.
- Mentees will be matched with a mentor up to the capacity of the mentors.
- Mentors will be from a different institution to the applicant.
- A mentor may have multiple mentees.

Mentor role

Access Mentors will provide the applicant with advice in producing a high-quality application aligned to expectations of the scheme. The applicant is not obligated to follow the Access Mentor's advice and should use their judgement and act accordingly in their best interest and that of their proposal. The mentor is not responsible for the outcome of the application. Mentors will not review their mentees application in the scheme review period.

An Access Mentor does:

- Read the application and suggest areas of improvement
- Listen and give their time
- Support, encourage and challenge
- Provide a framework to look at options, to understand implications and to plan future action
- Share experiences where relevant
- Signpost, if asked, information and resources – including people/networks.

An Access Mentor does not:

- Collaborate on research
- Apply jointly for grant funding
- Get involved in matters relating to status, promotion, or payments
- Directly act on behalf of a mentee
- Judge the actions the mentee takes.

Format

Applicants will meet with their allocated mentor for a 1-2-1, one-hour meeting (approximately) at their mutual convenience. Mentors will receive a draft copy of the application in advance of the meeting. Applicants should ensure that proposal is at a sufficient level of maturity to maximise their time at their mentor meeting.

The RAEng/Leverhulme Trust Research Fellowship scheme deadline is 19 November 2024. The mentor meeting will take place no later than 12 November 2024 (one week before the scheme deadline).

Meetings will be held virtually. If both the mentor and mentee agree, meetings may be held physically. Any subsequent meetings are at the discretion of mentor and the mentee.

Once the application has been submitted the Access Mentoring application, the relationship officially ends. Once the application has been submitted the mentor will not provide any further advice or support on the application.

The Academy and mentor are not liable for the information that is disclosed by the mentee.

Application limit

There is no limit on the number of Access Mentoring applications an institution can submit for the RAEng/Leverhulme Trust Research Fellowship scheme. Providing the candidates meets the eligibility criteria and submits a full application to the grant scheme.

PLEASE NOTE: Access Mentoring is a resource limited opportunity. Applicants do not need to wait until the deadline to submit their application and can be matched with a mentor as soon as the application is approved. Early submission is encouraged.

PARTICIPATION IN ACCESS MENTORING DOES NOT GUARANTEE THE APPLICATION WILL BE SUCCESSFUL.

ACCESS MENTORING IS CONFIDENTIAL. ALL CANDIDATES ARE TREATED EQUALLY. CANDIDATES WHO RECEIVE ACCESS MENTORING ARE NOT DISCLOSED TO THE REVIEW PANEL.

Application form

Access Mentoring applications are to be submitted via the Academy's [grant management system](#). The Access Mentoring application process is separate to that of the RAEng/Leverhulme Trust Research Fellowship. Applicants should ensure they adhere to the RAEng/Leverhulme Trust Research Fellowship application guidance.

Access Mentoring application **deadline is 4pm, Wednesday 16 October 2024**. This is subject to capacity of mentors being reached and may close sooner.

1. Applicant details

Q. Applicant name and contact details

Please provide your name and preferred contact details. You should also provide the details of the host institution where the RAEng/Leverhulme Trust Research Fellowship will be held and confirm that this is the 'host organisation'.

Q. RAEng/Leverhulme Trust Research Fellowship eligibility

Applicants will need to meet the eligibility criteria for the RAEng/Leverhulme Trust Research Fellowship. Please confirm that you have understood and met the Research Fellowship eligibility criteria by stating your RAEng/Leverhulme Trust Research Fellowship application reference number. The application reference number will be in the format of **LTRF-2425-21-XXX**.

Q. Access mentoring eligibility

To qualify for access mentoring applicants will need to be from an underrepresented group in engineering, specifically:

- **Women**
- **Black people, including those with any mixed ethnicity with Black ethnic background(s)**
- **Disabled people**

Q. Mentoring

What are the key attributes you would look for in a mentor and how do you think they would be able to help you? What specific areas would you like advice on?
100 words maximum.

2. Project details

Q. Project title

The essence of the research should be captured in the title and should be as informative as possible. Please ensure that it is understandable to a non-specialist reader.
10 words maximum.

Q. Project summary

Describe the research in terms that can be understood by a non-specialist reader.
100 words maximum.

Q. Subject category

Select one single broad engineering category that best describes your research proposal. If your research proposal fits into several categories, please pick the category that is most applicable to your proposal. See Annex 1 for subject category descriptions.

Q. Please provide keywords relating to the project

You may wish to include relevant words from the subject categories provided.
10 words maximum.

3. Declarations

Q. Applicant declaration

Please tick the checkbox once you have read and understand the declaration written in the application form. Once the entire application form is completed, a grey 'submit application' button will become available to the top right of the screen.

Q. Marketing: where did you hear about access mentoring?

This question is optional but helps the Academy to understand which marketing materials are most successful at reaching the academic community to improve future communications work.

Please note that once submitted the application cannot be edited, but you may view it from your GMS account.

Timeline

Milestone	Date
Access Mentoring call opens	3 September 2024
RAEng/Leverhulme Trust Research Fellowship call opens	3 September 2024
Access Mentoring application deadline. This is subject to capacity of mentors being reached and may close sooner	4pm, 16 October 2024
Mentor-mentee pairing	September - November 2024
1-2-1 meetings	Before 12 November 2024
RAEng/Leverhulme Trust Research Fellowships call deadline	4pm, 19 November 2024

Feedback

On completion of the Access Mentoring process, applicants will be asked for feedback via a survey on the Access Mentoring process so it can continue to be refined and tailored to be of most value.

For all queries, please contact the Research Team at research@raeng.org.uk.

Annex 1 – Subject categories

1) Civil, construction and environmental

Including aspects of civil and structural engineering; construction materials; earthquakes; wind and fire engineering; building engineering physics; construction management; numerical modelling; environmental engineering; water resources and flooding; offshore and coastal engineering; hydraulics; climate change and sustainability; waste management; geotechnical engineering; geomatics/surveying.

2) Materials and mining

Including metallurgy; metal forming; corrosion; failure analysis; structural integrity; non-destructive testing; inspection technologies; failure prevention; fabrication and repair technologies; welding and joining technologies; discovery and development of mineral resources; extraction and processing of minerals; mining engineering; materials performance; materials research; plastics and composites; structural materials (excluding materials specifically covered elsewhere).

3) Chemical and process

Including all aspects of chemical and process engineering; aspects of fuel technology; oil; coal and gas technologies; carbon; carbon sequestration; clean technology; combustion; catalysis; particulates; food processing; fermentation processes; pharmaceutical engineering; biotechnological processes.

4) Aerospace

Including all aspects of aeronautical engineering and aerospace manufacturing; turbomachinery and aerothermal engineering; avionics; radar systems; antennae; satellite systems; autonomous systems; aspects of systems engineering; airlines; materials for aerospace.

5) Transport and mechanical

Including all aspects of mechanical engineering; automotive; rail and marine engineering; transportation infrastructure; engines; turbomachinery; mechatronics; acoustics and vibrations; ultra-sonics; heat and thermodynamics; fluid dynamics.

6) Manufacturing and design

Including manufacturing management and manufacturing process innovation; manufacturing business improvement and re-engineering; CAD/CAM; robotics for manufacturing; engineering design.

7) Electrical and electronic

Including electrical, electronic and control engineering; design for electronics; aspects of nanotechnology and semiconductor engineering; lasers; optoelectronics; photonics; microwave engineering; instrumentation; display technology; solid state electronics.

8) Energy and power

Including energy technologies; electric power and energy systems engineering; nuclear and renewable energy generation; energy infrastructure; management of energy and energy resources for generation, storage, and transmission; distribution

and conversion of electric energy and power; electricity supply and energy conservation; hydrogen power; fuel cells.

9) Medical and bioengineering

Including all aspects of medical and biomedical engineering; orthotics; prosthetics; ultrasound for medicine; medical scanning and imaging; drug delivery; biomedical materials; tissue engineering; medical devices; medical robotics and computer assisted surgery.

10) Computing and communications

Including computational and software engineering; informatics; web and data science; telecommunications; mobile telephony; broadband; wireless spectrum; signal processing; television, film, and broadcasting; computer and video games; special effects.
