Overview

The Royal Academy of Engineering's Green Future Fellowship is now open for the third round of applications.

Academics and innovators everywhere are invited to bring their bold ideas and projects to life. It's an exciting opportunity to break barriers to climate innovation and accelerate world-changing solutions. And we need your help to spread the word!

How to use this toolkit

This toolkit is designed to make it simple for you to share consistent, on-brand messaging about the Green Future Fellowship. The content is ready to copy and paste, so you can post quickly and easily. Inside you'll find:

- core messaging
- ready-to-use social posts
- visual assets
- key links

This guide is designed to help you share news of this opportunity with your networks.

Social posts you can copy and paste

Here you'll find ready-made posts and blurbs that you can share directly on LinkedIn, X/Twitter, or in newsletters. Simply copy, paste, and post along with the visuals linked in the 'Visual asset pack' section.

Please include our social media handles in your posts so we can share and amplify your content.

Newsletter blurb

Climate innovation can't wait. The Green Future Fellowship supports innovators, academics and entrepreneurs to develop and scale their breakthrough technologies for real-world climate impact. The programme offers £3 million in funding, 10 years of bespoke support, and a global network. Could this be you? Check your eligibility and apply today. 🌱 <https://bit.ly/gff-apply-nl>

Visual asset pack

Please find images and a short video you can use across social media here:

www.raeng.org.uk/gff-resources

The pack is designed for different formats – square, vertical, and landscape – so you can share them on all platforms. Pair these visuals with the copy examples in the previous section.

Links you can share

Here you'll find some key links to include in your posts or share directly with potential applicants. Each one has a short explanation you can also share alongside.
