

Activity sheet 1

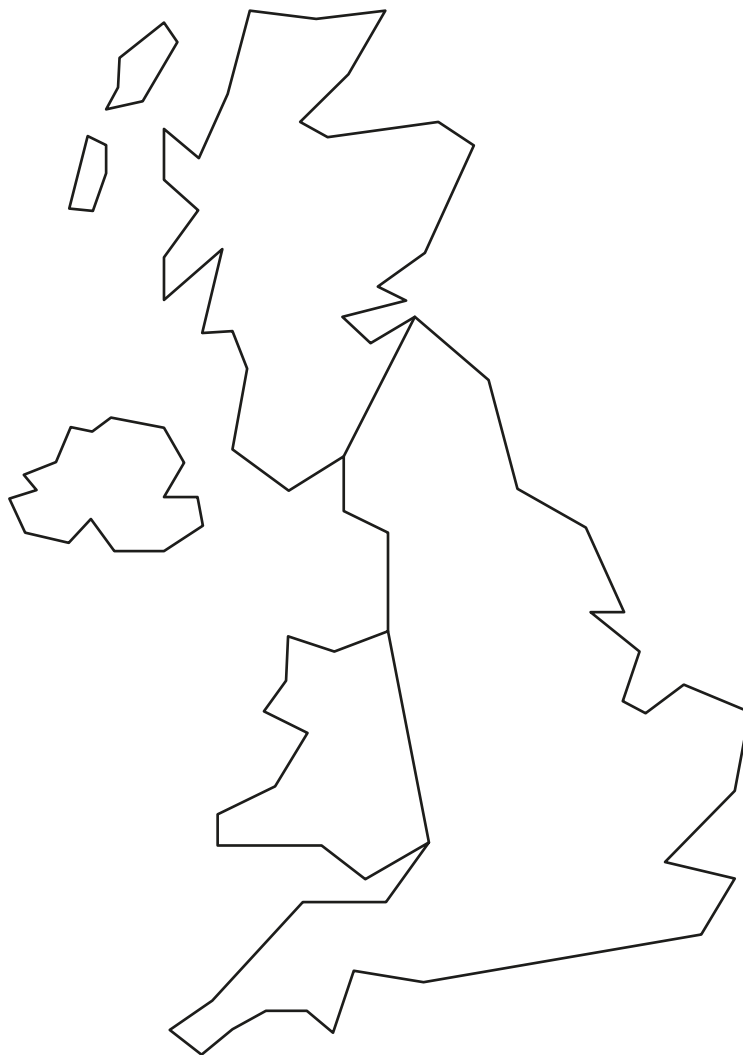

Identify at least one advantage and disadvantage of each form of renewable energy.

	Advantages	Disadvantages
Wind		
Solar		
Hydro		
Biofuels		
Geothermal		
Tidal		

List some advantages of combining renewable sources of energy:

Activity sheet 2

Label the map with your ideas about how wind, solar, hydro and tidal energy could be more widely implemented across the UK.

Identify some challenges to this and how these might be overcome:
