

LINKING UP

The Challenge

- *What is the problem / the need?*
- *Which countries may benefit, is it benefiting to developing countries?*
- *What are the constraints?*
- *What is the current knowledge and preliminary data?*
- *Why does it require interdisciplinary approach?*

Key Partners

- *Who are the key partners?*
- *What is their expertise?*
- *Which disciplines does it cover?*
- *Does it require undergraduate students*

Work to be undertaken

- *Who will do what?*
- *How the interdisciplinary approach will be integrated?*

Milestones

- *What are the major steps?*
- *Does it require events and visits?*

Expected Outcomes

- *What are the expected outcomes – short and long term -*
- *What is your Pathway to Impact (Knowledge, Society, People, Economy)*
- *How will this enhance social welfare and economic development in developing countries*
